SUMMARY

Informatics Engineering diploma graduate (D3, GPA 3.79/4.00) with hands-on experience building and deploying fullstack web applications using Laravel, React.js, and Tailwind CSS. Led a team of 3 developers on a production museum system with government REST API and CAS-based Single Sign-On integration. Applies object-oriented programming in PHP, C#, and Dart, and uses AI coding assistants to develop and verify code. Brings Software QA experience in black-box and integration testing.

WORK EXPERIENCE

PT Primalogic Global Teknologi – Dana Pensiun PT Pupuk Kalimantan Timur, Jakarta March 2026 – June 2026
SQA (Software Quality Assurance) Intern

- Led a team of 4 QA interns: reported team progress and achievements to the QA Lead on a daily basis, and coordinated and delegated the tasks assigned by the QA Lead.
- Performed and completed Vendor Integration Testing (VIT) and black-box testing on the DP PKT pension fund system, covering the Administrator, Accounting, and Membership modules.
- Managed defects throughout the testing phase of the Software Development Life Cycle (SDLC) using issue logs classified by priority and severity, and verified fixes with the backend team before production deployment.
- Managed 102 bugs with an 84% resolution rate, supporting a stable system for client handover.

Museum Geologi Bandung, Bandung June 2024 – Dec 2024
Fullstack Developer Intern | KaGeo Collection Storage Management System

- Led a technical team of 3 developers in building the KaGeo collection management system with Laravel, React.js, Tailwind CSS, and PostgreSQL, replacing manual record keeping with a centralized database.
- Reported development progress and milestones to Museum Geologi stakeholders every three weeks.
- Directed the developers in implementing the museum's business processes into the system, and recommended business process solutions to the museum.
- Integrated Ministry of Energy and Mineral Resources (ESDM) REST APIs, including CAS-based Single Sign-On (SSO), SIPEG for employee data synchronization, and regional data services.
- Implemented authentication and authorization workflows, and improved stability through backend debugging and performance optimization.
- Deployed the application to a production hosting environment for internal staff use.

Balai Besar Survei dan Pemetaan Geologi Kelautan, Bandung June 2022 – Sep 2022
Web Developer Intern | Marine Research Information & Meeting Management System

- Developed two responsive web applications with Laravel and Bootstrap for meeting management and research map access.
- Designed MySQL databases for data storage and querying, and applied security measures for data handling.
- Assisted with network setup and document conversion for the organization's digitization efforts.

PROJECTS

Project Tracker – Project monitoring web application, PT Primalogic Global Teknologi 2026

- Built a web application (.NET, SQL Server) with SSRS reports on project status, task completion, and team performance for management.
- Developed with AI coding tools (opencode, Claude Code) and verified through code review and testing.

FocusTalk – English learning mobile application, Bandung Jun 2025 – Jul 2025
Fullstack Developer

- Developed an offline-first English learning app (Flutter, SQLite) with gamification features (leaderboards, streaks, XP) to encourage consistent micro-learning.
- Built a RESTful API with FastAPI (Python) handling JWT authentication, profile synchronization, and leaderboard data aggregation.
- Implemented a rule-based algorithm and system overlay that triggers educational quizzes over distracting apps, with an adaptive number of questions per intervention.

EDUCATION

Diploma, Informatics Engineering – Universitas Logistik dan Bisnis Internasional, Bandung Sep 2023 – Aug 2026

- GPA 3.79 of 4.00 | Graduated: August 2026

LANGUAGES AND SKILLS

- **Languages:** Indonesian, English
- **Programming & Frameworks:** PHP (Laravel), JavaScript (React.js, Express.js), Python (FastAPI), C# (.NET), Dart (Flutter), HTML5, CSS3, Tailwind CSS, Bootstrap
- **Databases & Reporting:** MySQL, PostgreSQL, SQL Server, SQLite, SSRS, DBeaver
- **Tools & Platforms:** Git, GitHub, Postman, Visual Studio Code, Laragon, Excel, Google Sheets
- **AI Tools:** GitHub Copilot, Claude Code, Gemini, opencode
- **Soft Skills:** Teamwork, Communication, Problem Solving, Critical Thinking
- **Focus Areas:** Fullstack Web Development, Back-End Development, REST API Development, Object-Oriented Programming, Debugging, Software Testing

ORGANIZATIONAL EXPERIENCE

Head of Training Department – Himpunan Mahasiswa Teknik Informatika, ULBI Nov 2023 – Jun 2026

- Led a 5-member Training Department, coordinating its activities and guiding members to compete in academic competitions, including a 1st Runner-Up finish at Winaction 2026 (UI/UX Design category).
- Led a 3-member development team for PEMIRA ULBI, the election system used by 21 student organizations with 1,000+ voters.
- Served as Event Chair and Speaker of the Laravel Bootcamp 2025, a hands-on class for 19 participants on building a To-Do List application.
- Authored the book *Membangun Aplikasi To-Do List dari Nol* (Building a To-Do List Application from Scratch), published in 2025 by Fasslib Serambi Media and registered with an ISBN.
- Taught 32 students at SMK Negeri 2 Cimahi in a Community Service Program (PKM), “Improving Web Programming Competency through a Laravel Bootcamp Workshop” (Sep 2025).
- Spoke to 37 teachers at SMKN 3 Bandung in a Community Service Program (PKM), “Socialization of the Use and Ethics of AI as a School Administration Tool.”

TRAINING AND CERTIFICATIONS

Computer Networking Competency Test – Competent, LSP P1 ULBI (BNSP) Sep 2026

SAP BC400 – Introduction to the ABAP Workbench, SAP University Partnership July 2025

Internship Completion Certificate – Bandung Geological Museum Dec 2024
